FROM: Orthopedic Foundation for Animals, Inc. From: Route 1 Constantine, Mich.

" The biggest problem in our breed today is loss of type, and hip dysplasia xrays have much to do with the production of faulty dogs. " How often have you read or heard that statement? Is it an excuse given by those who won't - or can't - get xray clearances on their dogs? Or is it an honest complaint?

These are faulty dogs in all breeds being produced every day, simply because their breeders thought that breeding a bad bitch to a Champion would produce Champion puppies. Their theories are extended even further with the idea that, if a Champion is good, and Am-Can. = Eng. = BermCh. is better and the ultimate is represented by adding every letter of the obedience alphabet to that title.

The dog who holds such a multi-syllabic title may be himself a truly, great dog, but is he the one to give your bitch just what she needs in the way of fault corrections? With some bitches, nothing short of reincarnation is needed. With others perhaps the non-titled dog, just beginning his show career, has the good points your bitch needs to produce great puppies. With some, of course, the multi-titled dog is just the one needed to make that magic "nick". But, it will be the combination of dogs themselves which is responsible - not the impressive array of titles.

None of the foregoing is news to the experienced breeder. He looks first for soundness and type in both bitch and stud, titles are the frosting that makes the end product, the puppy, easier to sell. But I don't hear anyone advocating doing away with titles, simply because not all Champions produce Champion offspring.

So let's put the OFA number in its proper perspective. What does it represent? Simply this - that this dog, when xrayed, had sound hips, free from the congenital defect of hip dysplasia. It is a measure of one point of soundness; a point that might otherwise be invisible in a given dog, but which would be passed on, for better or worse, to his offspring. The OFA number is not, and was never intended to be, the absolute standard for judging which dogs should or should not be bred. The OFA does not give breeding advice, nor does it judge dogs. It reads xrays, and assigns a file number to plates that meet certain standards which indicate that the dog which was xrayed is not dysplastic. Period.

When looking for a stud or bitch, the first question should not be "Does he have an OFA number?" but "Is it sound and a good example of the breed?" Include the OFA clearance of his hip xrays as one point in favor of his overall soundness. When breeders begin breeding only sound, typed dogs - cogs with good fronts and heads and toplines and hips - then we can stop complaining about "unsoundness" and "loss of type". But meanwhile, let's put the blame where it belongs - on the owners of bitches, anxious for a litter, and the owners of studs, anxious for a fee. The day has not yet come when we can watch a title of an OFA number walked down the street. It has to have a dog attached to it. Let's make that dog the best we can breed.

A Great Pyrenees breeder wrote this article for us after having been "exposed" to some comments on the breeds who are "throwing over all else for h. d. ". I wish more breeds would bring this out into the open. Meantime we wish to thank Mrs. Kitty Carpadus for writing this article.

Dear Mr. & Mrs. Carpenter:

In the latter part of September, 1969 two dogs were abondoned on our property. A constant and perpetual effort has been made to locate the owners of these dogs. These attempts have been both by letter and personal visits. In the majority each letter contained a stamped self-addressed envelope. However the recipients with minor exceptions have not had the courtesy to reply.

The dogs are a female Vizsla approximately a year old and the other dog is a male shepherd spaniel mixture approximately the saine age.

It is believed the Vizsla is a pedigreed dog and as such may have been sold to someone in a city location. Would you have a pedigreed record of such a dog or an owner who has reported loss of same?

Your assistance and cooperation will be greatly appreciated.

Enclosed is a stamped self-addressed envelope for your reply.

Yours truly,
Floyd W. Ahrens

Dear Kathy

It is with regret that I report the death in her sleep of my great imported bitch Ch Annavolgyi Arany, better known as Pici, on August 31st.

She was in remarkably good health although well on in her fifteenth year. She was I think the second of third Vizsla bitch to achieve her AKC championship, and did it in three five point majors.

Her name appears in the pedigrees of many greats, she was the mother of Ch Kedves v Hunt, Csillan v Hunt, and many, many others.

She was widely travelled, having beside her native Hungary, visited Austria, Belgium, Czechoslovakia, France. She lived through the Revolution on the Gellerthegy in Buda, and accompanied me on my travels thoughout the Rocky Mountain area, and throughout the mid West.

Incidentally, people may be interested to know that Charles' great Vizsla, Ch. Csisckas of Goncoltanya is still with us. He will be 17 in December.

Sincerely,
Joan Hunt

ON THE COVER

Seen on the cover is Am., Can., & Mex. Ch. Napkelte Vadasz Dalos owned by William and Elsie Totton and Judy Webb. He is pictured with Mrs. Judy Webb who is alos his exclusive handler.

On May 24, 1970 at Brighton, Colorado Danny made breed history by becoming the first Vizsla to ever win BEST IN SHOW in an AKC licensed show. Mr. Charles Hamilton was judge for the Sporting Group and Mr. Nelson Groh awarded the BEST IN SHOW. Since winning BIS Danny has been awarded first in the group on two more occasions giving him a total of five firsts which is also a record for a Vizsla.

Simultaneously he is being campaigned in Canada, his birthplace where he was #1 Vizsla last year. Shown 10 times so far this year in Canada he has come home with 5 Sporting Group 1st, 5 Sporting Group 2nd, 10 Best Canadian Bred Sporting Dog, 5 BEST CANADIAN BRED DOG IN SHOW and 1 all breed BEST IN SHOW. Judge Forest Hall awarded the Canadian BIS. With this win he became the first Vizsla to win BIS in Canada.

Danny has had some formal field training and his limited competitions have shown good style and outstanding drive. He is slated for more active participation in the field in the near future.

Danny is the sire of champion get and other of his puppies have points toward their championships. So he is a very outstanding all round Vizsla.
