WARNING.... Submitted by Margaret Mc Cune

We recently purchased one of those aluminum aircraft crates for one of our dogs who was quite distractful, as an ordinary wire crate couldn't hold him and I was concerned about him injuring himself with broken wires as he always managed to rip the wiring loose with his teeth.

Needless to say we shopped around for a strong crate and finally settled on this particular California made "death trap". This company's advertising states that their crate will safely hold your dog during transport and insure him of proper ventillation at all times. This statement is false as we found out the hard way.

When the crate first arrived, I left it in the sun all day as I was concerned about its heat resistent qualities. At the end of the day it was cool so I assumed it was safe to use. We never realized that although it kept heat out, it would keep your dogs body heat in due to improper ventillation allowing

WARNING. . . . Continued:

for his body heat to dissapate. I will spare you the horrible details I witnessed when we used the crate only to find that with all the windows of our car open, our beloved Gabe had died of heat stroke.

We rushed him to the closest Vet(2 blocks away) and every effort was expended by this man to save him; but it was no use. When the Vet checked the dog's temperature, it was 110° F., as was the inside of the crate. In his professional opinion, the dog's death was directly due to the improper ventillation bringing on heat stroke. I cannot stress this point enough. Be wary when buying aluminum crates and if possible, do not use them at all. The anguish you suffer afterwards due to ignorance is truly unbearable.

Editors Note: Thank you, Margaret, for sending the above letter in to the News. I'm sure that there are alot of people who have used these aluminum crates in the past. Just think, if this terrible thing could happen in an open car, what would happen in an airplane if the ventillated areas were blocked with other baggage etc. Most airlines make a pretty decent wooden shipping crate that can be used more than once. If a person is looking for a permanent crate, I recommend the Kennel-aire crates very highly. We have used them for years and they can be used in shipping. I have never known a dog to chew through a Kennel-aire crate and furthermore, if one has a dog that tends to get upset when crated, covers (cloth) can be purchased through the company to fit the various size crates. For a free catalog of all Kennel-aire Products write to: Dept 12, 725 N. Snelling Ave., St. Paul, Minn. 55104.

Show News - Submitted by: Marion Coffman

A lovely young 15 month old bitch "Cariad's Liebstraum Barat", earned the final points to complete her championship when she went Winners Bitch for a 3 pointer at the Northwestern Conn. Dog Club's Show on Sept. 26th. "Libbee" is owned by 13 year old Angele Wright of Cornwall, N. Y., and was completely trained and handled by the young girl. Angele started handling her mother's Shelties when she was only 5 years old and started training and showing Vizslas for Cariad Kennels at the age of 10, doing considerable winning at both Match and Point Shows. Her big moment was handling Ch. Cariad's Gaybine to a Best in Show at the Rockland County Kennel Club Match Show last year over an entry of 650 dogs. She also has several Junior Showmanship wins to her credit and looks forward now to earning Obedience degrees with her new Champion. "Libbee's" sire is Ch. Glen Cottage Loki Barat, C. D. - her dam is Ch. Balatoni Sassy Olca, both owned by the Coffmans at Cariad Kennels. "Libbee's" win gives them the 3rd Champion from their breeding finishing this summer.

ALERT FOR PET OWNERS
(Taken from Miami Valley Vizsla Newsletter-Oct. '71)

To the Editor of the News:

We are writing to alert all pet owners to the potential dangers inherent in the flea discs and collars and tags. PLEASE, before you put one of the above items on your pet, consult with your Veterinarian to see if your pet really needs such protection and will benefit from it.

We bought one of those items for our new puppy and within a week he was dead. If we had only known of the danger, we would never, never have purchased the item.

We bought our puppy a regular collar on Friday, Aug. 13, 1971 and almost as as afterthought, we bought a disc, too. Within a few days the puppy was snappy and by Tuesday he was in convulsions. When we got him to the Vet's, the doctor saw the disc on his collar and knew what the problem was. He told us that these discs give off clouds of chemicals and that the dogs breathe in all this junk and it pollutes their organs. Our puppy, being small, was just overwhelmed by the fumes. Treatment did not help and we had to have him put to sleep on Friday, Aug. 20th.

The whole affair was dreadful, both from the agony the dog went through and the realization that the whole thing need not have happened if we had only known. And so we write this letter, to alert other pet owners to the possible dangers of chemical items sold for pets. Please check with your vet to be sure.

TOP TEN SHOW/OBEDIENCE DOGS - 1971

Compiled By: Bob & Maxine Averill

The idea for this system was first started when we read the Top Ten Field Trial Dogs by Phil Rosenberg of Illinois. We thought it would be interesting to determine who the Top Ten Show Dogs are.

We felt that a point system should be developed to count not only the number of wins, but also include the size of the entry in the breed. We felt that group wins and Best in Show wins should be given recognition also. The following system resulted:

> A dog or bitch winning Best of Breed is given points equal to the maximum earned by the Winners Dog or Winners Bitch (whichever is greater) in Vizslas at that show.
>
> Group placements entitle the Best of Breed winner to the maximum earned in any breed defeated in the group. A Best in Show winner is entitled to the maximum points earned by any breed in that show.

This system incorporates the AKC point system (which compensates for entry size in certain areas) with a recognition of group and Best in Show wins.

We will list the top ten dogs and the top ten bitches in the country. This tabulation will also show the total dogs defeated in the breed.

All information is taken from the AKC Gazette. The standings are for the calendar year and so are a couple of months late as the Gazette results appear about two months after they occur.

A system was also developed to rate and rank the top obedience dogs. This system unlike the show and field systems will not take into account the size of the entry nor placements within the entry. The rating system will be simply a batting average approach. The rating will be the average score for the year compiled monthly. The rank will of course be determined in the order of the highest average. Since the AKC Gazette does not publish non-qualifying scores (less than 170 points) these will by necessity be omitted.

The system will include rankings in Novice A, Novice B, Open A, Open B and Utility. Tracking Dog degreed earned will also be acknowledged. The monthly report will also include the number of scores used to determine the average.

— ATTENTION —

WE HAVE PROBLEMS AND WE NEED YOUR HELP! PLEASE READ THIS CAREFULLY.

There has been considerable confusion regarding the payment of dues since the NEW Constitution went into effect. In the past, dues always ran from whatever month you happened to join the club. THIS IS NO LONGER THE CASE. ALL DUES are now DUE on the 1st of JULY. Please re-read the new Constitution and By-Laws (They were published in the Jan. issue of the NEWS. It doesn't matter if you renewed your dues or joined the club for the first time in either January, February or March; YOU STILL HAVE TO PAY AGAIN FOR THE FISCAL YEAR 1971-1972 ON JULY 1st! And for those members whose dues under the old constitution would not be due until the late fall months, YOUR DUES ARE ALSO DUE ON THE 1st of JULY. This might not seem fair to you at this time, but once this starts running smoothly it will be alot easier on everyone, because everyone's dues will be due from now on at the same time.

The Treasurer has sent out notices and has extended the grace period thru the end of October BUT since so many people have not renewed their dues to date we felt that it just has to be an oversight and that confusion must still exist regarding the changeover. The Treasurer simply does not have the time (not to mention the expense of repeated notices) to send notices out again. THEREFORE I am publishing the list of all members whose dues have not yet been paid for the fiscal year 1971-1972. If the dues remain unpaid at the end of December we will have no alternative but to drop you from the membership and the mailing list for the Vizsla News. But we are sure that this has been an oversite and as soon as you realize that your dues have not been paid, you will send Carolyn your dues. From now on, every year in the month of May the Treasurer will send the Editor of the News a list of all members whose dues are due on July 1st and this list will be published in the Vizsla News. This will be your notice that your dues are due!

I was all set to type the last couple of items for this month's News - one letter from Richard Lesage of Moline, Illinois and the other from Kenneth Fales of Bay City, Michigan - when the Typewriter decided to act up. Because it is an IBM and I live in the Country it won't be serviced for a few days so rather than hold up the News I am taking it to the Printers as is. See you next month folks. CJS
